

Leading Sydney Medical Doctor speaks out...

How To Break All The Rules And Turn Your Body Into An Automatic Fat Burner

Bodytrim: The Weight Loss Secret has already helped thousands of Australians lose their excess weight faster than they ever dreamed possible. Why not find out what Bodytrim can do for you by accepting this 30 day free trial at my risk!

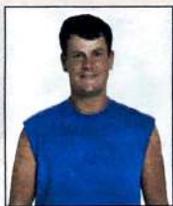

I want to inform you about a time-tested formula I've developed for the almost effortless removal of stubborn fatty deposits. In fact it's so effective that, depending on how much you weigh right now, you can lose up to 5 kilos a week. And as incredible as it sounds, you can lose as much weight as you desire while eating six meals a day.

And I'm not talking about eating carrots and celery sticks like a rabbit. I'm talking about indulging your taste buds with rich, full flavoured and filling meals you will wholeheartedly enjoy. Most importantly, it's all based on scientific proof, not hype and false promises. And I'll stake my medical reputation on it.

- ✓ NO need to starve yourself
- ✓ NO calorie counting
- ✓ NO self-denial
- ✓ NO sweaty exercise

As a medical doctor specializing in weight loss, I've seen all the fads come and go over the last thirteen years: diet books, cheap drugstore pills, meal replacement shakes, chemist diets. If you're like most people, you've probably tried at least one of them and failed to achieve the results promised.

Or you've seen shows like "The Biggest Loser" and thought to yourself "Forget it. It all seems too hard and complicated". But before you resign yourself to a lifetime carrying around an overweight body, listen to what Chris Garling, the winner of "The Biggest Loser" has to say:

TV programs are all about ratings, not about helping people lose weight. I lost weight the hard way. It required heaps of effort, deprivation and lots of will power. Yet while many of my friends from The Biggest Loser have stacked the weight back on (just like 95% of the population), I now get the same results with 10% of the effort. If you think sweating is overrated... if you've had it with over-the-top exercise routines, if you'd like to slim down your belly, thighs, arms and butt without starving yourself, then you can't go past Bodytrim.

Chris Garling, Winner of 'The Biggest Loser' 2007

If You've Tried To Lose Weight Without Success - It's Not Your Fault. The bottom line is the diets most people use don't work. 95% of people who try to lose weight gain it all back because it's not physiologically possible to lose weight the way almost everyone is trying to do it.

That's why I teamed up with former Australian Personal Trainer of the Year Geoff Jowett. Together we have created Bodytrim; a simple and easy to follow weight loss kit that shows you how to destroy that embarrassing fat once and for all.

No other personal trainer of our time has crusaded harder to advance the science of weight loss than Geoff Jowett (B. Sp. Sc.) but it is actually his courage to leave personal training that Australians may thank him for most. He has braved attacks from former colleagues to expose the truth. While others cashed in on lucrative personal training businesses, he walked away from his career to reveal the weight loss secret. He's the conscience of modern day weight loss.

"Failure doesn't exist with Bodytrim. It's not a word in the Bodytrim vocabulary. I now know THE SECRET to be able to maintain my weight loss forever. It's all about lifestyle so if I go on vacation or have a week of continual events (Christmas is the festive season) no big deal I just pick up where I left off and start over...Bodytrim is so simple and it makes sense."

Leanne Thomas, Mother of 3

"In a word, amazing ... I lost 20kg in 12 weeks. This system totally changed my life. Now I eat more and weigh less. I also have more energy. I no longer see food as the enemy but rather the secret to losing weight."

Bodytrim is based around The Weight Loss Equation: a time-tested formula that doesn't require counting calories or starving yourself, or the deprivation and suffering associated with conventional dieting.

It allows you to tap into your own fat battery for energy, so you can automatically burn fat right out of your body...while you're working, while you're shopping, even while you're sleeping.

Just imagine eating six meals a day and within less than 30 days, looking at yourself in the mirror and hardly recognizing the person staring back at you, watching yourself slide into new clothes you once thought impossible to wear, going to a party or social event feeling confident, secure and outgoing... that would be something, wouldn't it?

You bet it would. And scores of Australians have already done it. Just look at John and Leonie's results...

So you can try this System AT MY RISK!

If you're like most people I know, you've probably come across plenty of rip offs and scams in your search to lose weight, and even though very few (if any) were actually developed by a licensed medical doctor, I don't think you should have to spend a cent until you've tested this system out for yourself.

Here's what you get: DVD's, reference guides, phone and online support and much more. It's like having your own personal weight loss coach 24/7. Basically, everything you are ever going to need... but get this: there is no strenuous exercise.

Here's how to order: All you need to do is call 1300 66 44 80 and order with your credit card or log onto www.bodytrim.com.au and quote promotions code ST01. The only up front cost is a shipping and handling charge of \$9.90, and if you're not satisfied that's all you'll pay, simply return the products to us within 30 days.

Try it out for free: Your credit card will not be billed until 30 days after you receive your Bodytrim kit.

If you are not 100% satisfied, I want you to return it to me, and I'll tear up your credit card details on the spot so it won't cost you a cent. No questions asked. No hassles or forms to fill out. No problems at all.

We are making this unbelievable offer because we believe in the power of word of mouth advertising, and once you get the amazing results many other people already have, you will tell your friends who will rush out to buy at book and health stores. There is already significant interest from retailers, but once it's in stores the free trial will be over.

We are only offering free trials to 2300 lucky Australians. That is the number our marketing analysts have stated will create a word of mouth explosion. The product will then be sold at full up front retail value. We are already close to 50% of that number so pick up the phone and order now. It is estimated that this offer will expire by Friday 30th of November.

So why not order Bodytrim right now on me! You won't be sorry. You have my word on it and guarantee as a medical doctor.
